EXPERIENCE

Chief Design Officer

Present

One Big Match

- Designed the app and desktop experience and created reusable components and user-flow prototypes in Figma.

UX/UI Designer

Jan 2026 – Present

SipN'Scale

- Design end-to-end website flows and interactive prototypes in Figma, translating product requirements into clear, navigable user experiences.
- Collaborate with the Branding team to ensure all interface designs are consistent with the established brand identity's typography, color systems, and visual tone.

Digital Development Staffer

Aug 2024 – Present

The GUIDON

- Design user interfaces for interactive articles and prototype end-to-end user flows in Figma before handoff to development.
- Develop and implement Figma designs into production-ready components using React.js and Tailwind CSS.
- Pitch and conceptualize editorial stories with the potential to be adapted into interactive and data-driven media formats.

Web Designer and Developer

Jul 2025 – Present

TEDxAteneoDeManilaU

- Led 4-part web development workshop series for 20+ student developers, upskilling them in modern technologies like Next.js to enable organization to tackle more complex projects
- Developed internal event registration system to automate check-in process, reducing check-in time by 75% and now used for all MISA events
- Led external client projects providing real-world development experience for organization members

Documentations Member

Sep 2025 – Present

Ateneo Blue Repertory

- Photograph rehearsals and final show dates across productions, including *The Guy Who Didn't Like Musicals* and the ongoing *The Addams Family*.
- Post-process production photography in Adobe Lightroom for use as publication assets and marketing collateral.
- Conceptualize and direct cast shoots and video teasers, briefing cast members on concept, blocking, and visual direction, to produce marketing materials for productions.

EDUCATION

Ateneo de Manila University

Expected May 2028

Bachelor's of Science in Computer Science

- Design Thinking in Public Health, Software Frameworks and Development Tools, Introduction to Statistical Analysis, Introduction to Programming, Data Structures and Algorithms, Math for Computer Science, Electronics.

PROJECTS

Schrollar

Mar 2026

2nd Runner Up in Hackfest2026:AXIS

- Conceptualized and shot the video pitch for the research discovery platform that helps students find and narrow paper topics through a familiar feed-style browsing experience and easier content engagement.

TEDxAteneoDeManilaU Website

Mar 2026

Volunteer Project

- Worked in a team of 5 and was designated to implement key website components.
- Planned and designed key wire-frames on website pages, merchandise, registration, etc., all collated and prototyped using Figma.

Salbar

Feb 2026

Top 5 Health Track Finalist in MyNaga Mayoral Hackathon

- Designed an emergency offline triage system for disaster scenarios
- Led user interface and userflow in Figma.

Hakot

Nov 2025

2nd Place in Shipped or Be Shipped 2025

- A centralized shared shipment platform to better plan and schedule shipments according to the MMDA truck ban, aimed at reducing shipping costs and waste.
